PERSONAL PROFILE

Dedicated junior software developer with 2 year of experience specializing in PHP and WordPress development. Proficient in customizing WordPress themes and plugins, optimizing website performance, and implementing responsive designs using HTML, CSS, and JavaScript. Skilled in developing dynamic, user-friendly websites and ensuring seamless content management solutions. Experienced in translating design prototypes into high-quality code, collaborating with cross-functional teams, and leveraging tools like React.js and Git to deliver robust and scalable web applications.

WORK EXPERIENCE

Junior Software Developer

CloudEcho Systems pvt ltd | May 2023 – Present

- Developed dynamic websites using WordPress and PHP, customizing CMS functionality to enhance user experience and performance.
- Built reusable components and optimized performance in React.js, working with Redux for efficient state management and scalability.
- Integrated RESTful APIs and implemented JWT authentication, ensuring secure and seamless data exchange.
- Skilled in JavaScript, TypeScript, HTML, and CSS, with expertise in Git, NPM, and Figma for design collaboration and version control.

Python Intern

Iroid Technologies | Nov 2022 – April 2023

- Developed and maintained web applications using Python and Django, implementing scalable backend functionality and RESTful APIs with Django Rest Framework for seamless data exchange.
- Created responsive and user-friendly interfaces using CSS and Bootstrap, enhancing user experience while ensuring efficient data retrieval and manipulation with SQL.
- Conducted unit testing and debugging to identify and resolve issues, ensuring high-performance and reliable applications.
