PROFILE

Software Developer with 3 years of experience specializing in WordPress, and PHP , React.js, development. Experienced in customizing WordPress themes and plugins, developing PHP-based functionalities, and managing CMS solutions. Proficient in building dynamic, responsive, and user-friendly web applications using React.js, JavaScript, HTML, and CSS. Skilled in translating design prototypes into high-quality code, creating reusable UI components, and optimizing website performance. Adept at API integration, Git-based version control, and collaborating with cross-functional teams to deliver scalable and maintainable web applications.

WORK EXPERIENCE

Freelancing 12/2025 – Present

- Develop and maintain responsive, high-performance websites
- Work with HTML, CSS, JavaScript, PHP, and WordPress
- Handle client communication and requirement gathering
- Ensure timely delivery and maintain code quality standards

Software Engineer 07/2025 – 12/2025

Nuventure Connect pvt ltd

- Software Engineer with hands-on experience in WordPress development and website maintenance.
- Currently expanding expertise in AI automation, with a recent certification in **AI Automation: Build LLM Apps & AI-Agents with n8n & APIs.**
- Skilled in building and integrating AI-driven workflows, leveraging APIs and no-code/low-code tools to streamline processes and enhance functionality.

Junior Software Developer 05/2023 – 07/2025

CloudEcho Systems pvt ltd

- Developed dynamic websites using WordPress and PHP, customizing CMS functionality to enhance user experience and performance.
- Optimized components for maximum performance across various web-capable devices and browsers.
- Strong team player with experience using front-end development tools such as NPM and version control systems
- Built reusable components and optimized performance in React.js, working with Redux for efficient state management and scalability.

- Integrated RESTful APIs and implemented JWT authentication, ensuring secure and seamless data exchange.
- Skilled in JavaScript, TypeScript, HTML, and CSS, with expertise in Git, NPM, and Figma for design collaboration and version control.

Python Intern

11/2022 – 04/2023

Iroid Technologies

- Developed and maintained web applications using Python and Django, implementing scalable backend functionality and RESTful APIs with Django Rest Framework for seamless data exchange.
- Created responsive and user-friendly interfaces using CSS and Bootstrap, enhancing user experience while ensuring efficient data retrieval and manipulation with SQL.
- Conducted unit testing and debugging to identify and resolve issues, ensuring high-performance and reliable applications.

EDUCATION

Master of Computer Applications

2020 – 2022 | Kannur University

Information Technology Education Center

Bachelor of Computer Applications

2017 – 2020 | Kannur University

Sibga Institute Of Advanced Studies

SKILLS

- | | | |
|---------------------|----------------------|---------------|
| - HTML | - CSS | - Javascript |
| - WordPress | - Elementor | - WooCommerce |
| - Php | - React.js | - Figma |
| - python (Django) | - Jira | - Git |
| - Sql | - n8n | - AWS |
| - Agile Methodology | - Visual Studio Code | - API |
